

Name: Majid

Family Name: Sadeghizadeh

Birth Place: Ardabil, Iran

Address: Department of Genetics, Faculty of Biological Sciences, Tarbiat Modares University, Tehran, Iran, 14115-175

Phone: (+9821) 82884409

Fax: (+9821) 82883463

Email: sadeghma@modares.ac.ir & sadegh_maj@yahoo.com

Academic Rank: Professor

Educational Records:

Post.doc. Cloning and expression of the human inducible nitric oxide synthase gene (iNOS), Institut national de la santé et de la recherche médicale (INSERM) U75 CHU Necker Enfants Malades, Paris, France, 1995-1997

PhD. Molecular Biology of Eukaryotes, Option Molecular Virology, with Dr. Peter Sheldrick, Universite de Paris VII, France, in collaboration with Dr. John Hay's Laboratory, The State University of New York at Buffalo, NY, USA, 1988-1993

MSc. Molecular Biology of Eukaryotes, Universite de Paris VII, France, 1986-1988

BSc. Molecular Biology of Eukaryotes, Universite de Paris VII, France, 1985-1986

BSc. Nutritional Engineering, Tabriz University, Iran, 1975-1980

Short-Term Fellowships:

Yeast Molecular Genetics, International Center for Genetics Engineering and Biotechnology (ICGEB), Trieste, Italy, 2008-2009

Background:

Dr. Majid Sadeghizadeh is a Professor of Molecular Genetics, at the Department of Genetics, Tarbiat Modares University, Tehran.

After completing a B.Sc. and an MSc in Molecular Biology, he further continued his Ph.D. at the Université de Paris VII, France, with Dr. Peter Sheldrick. His PhD project was conducted in collaboration with Dr. John Hay at the State University of New York at Buffalo. Majid Sadeghizadeh's research there mainly focused on the transcription and replication of human herpes simplex viruses (HSV-1) as well as varicella zoster virus (VZV).

He then returned to Iran in 1994 and joined the Department of Genetics at Tarbiat Modares University (TMU) in Tehran where he was one of the founders of the first graduate (PhD) program in Molecular Genetics in Iran. Since then, Professor Majid Sadeghizadeh has been a group leader and a lecturer at the Department of Genetics and trained many young researchers. Also he is a principle investigator at the new-born Department of Nanobiotechnology. His main fields of research include:

- Molecular diagnosis of human infectious viruses e.g. HSV, HBV and Adenoviruses.
- Production of recombinant proteins such as human IL-2 and thermostable DNA polymerases.
- Application of nano(bio)particles for gene and drug delivery purposes such as Dendrosomes.

And finally, more recently, Dr. Majid Sadeghizadeh and his team have been working on production of suicide constructs for targeting Cancer Stem Cells.

Professional Experiences:

- Professor of Molecular Genetics, Department of Genetics, Faculty of Biological Sciences, Tarbiat Modares University, 2009-Present
- Associate Professor, Department of Genetics, Faculty of Biological Sciences, Tarbiat Modares University, 2004-2009
- Assistant Professor, Department of Genetics, Faculty of Biological Sciences, Tarbiat Modares University, 1994-2004

- Head of the Biology Group, Faculty of Biological Sciences, Tarbiat Modares University, 2003-2008
- Head of the Department of Genetics, Faculty of Biological Sciences, Tarbiat Modares University, 1998-2005
- Assistant Professor, INSERM U75 (Post.doc) Necker Medical School, Paris, France, 1994-1996
- Research Associate, Dept of Microbiology, SUNY at Buffalo, USA, 1992-1993
- Research Associate, Uniformed Services University of the Health Sciences(USUHS), Bethesda, USA, 1990-1992
- Biotechnology Committee Member of the Ministry of Science, Research and Technology at Tarbiat Modares University, 2005-Present
- Research Committee member of the Biotechnology Center, School of Medical Sciences, Tarbiat Modares University, 2000-Present

Courses Taught:

- Advanced Molecular Genetics I&II, to PhD Students
- Advanced Genetic Engineering I&II, to PhD Students
- Biotechnology, to MSc and PhD Students
- Advanced Molecular Biology, to MSc and PhD Students
- Viral Genetics, to MSc Students
- Bacterial Genetics, to MSc Students
- Molecular Genetics, to MSc Students
- Genetic Engineering I&II, to MSc Students

- International Publications:
